

Worksheet 4b: Timeline

This timeline table is used to plan the time required for each stage of production of the gown or wrap. First, you will need to work out all of the stages needed to make or produce the gown or wrap. Then order the stages into a logical sequence, estimate and shade when each stage is expected to be commenced and finished. If you are working in a group, tasks or stages can be colour-coded to represent which member of the group is responsible.

Stage of production/realisation	Blocks of time (periods, weeks, etc.)														

Stage of production/realisation	Blocks of time (periods, weeks, etc.)
