

KWFL chart

After you have targeted areas from a design brief that you need to research, identify what you already know, describe what you need to find out and identify how you will seek the information. After you have done some research, record what you found out, or have learnt about the design issue.

| Specific design issue you need to research | What you <u>K</u> NOW | What you <u>W</u> ANT to know | How will you <u>F</u> IND out? | What you have <u>L</u> EARNT |
|--|-----------------------|-------------------------------|--------------------------------|------------------------------|
